PROFESSIONAL SUMMARY

Highly motivated and academic honors Computer Science student (3.9/4.0 CGPA) at the University of Jhang, specializing in frontend engineering and modern full-stack methodologies. Possesses strong structural logic and problem-solving abilities, with hands-on experience executing dynamic web dashboards, API integrations, and scalable Object-Oriented architectures. Adept at applying Agile Scrum and V-Model methodologies to deliver clean, optimized software solutions. Eager to leverage technical skills and rapid learning aptitude in a professional development internship.

TECHNICAL SKILLS

Frontend Web:	HTML5, CSS3, JavaScript (ES6+), Modern Responsive Web Design, User Interfaces
Backend & Frameworks:	Python (Foundational), CakePHP, Django Learner, Core C / C++ Systems
Databases & Tools:	SQL, MySQL, MS Access, Git & GitHub, Dev-C++, Visual Studio Code, MS Office Suite
Core Competencies:	Object-Oriented Programming (OOP), File Handling, API Integration, Agile Scrum, V-Model Lifecycle

KEY PROJECTS

SprintFlow Workspace Dashboard

2026

- Designed and engineered a streamlined developer workspace productivity dashboard using advanced frontend architectures.
- Integrated RESTful APIs to handle real-time dynamic data rendering, operational status tracking, and continuous workflow updates.
- Managed project tasks using structural Sprint tracking methodologies to optimize module development flow.

Personal Web Development Portfolio

2026

- Developed a fully responsive, modern web portfolio showcase using semantic elements, custom layouts, and interactive animations.
- Engineered cross-browser compatibility and fluid interface transitions to present technical skills, GitHub projects, and qualifications.

Bank Management System

2025

- Built a full-featured desktop application in C++ applying absolute Object-Oriented Programming (OOP) concepts including inheritance, data encapsulation, and polymorphism.
- Implemented reliable physical file-handling protocols to secure continuous data storage, record mutations, and client account tracking.

EDUCATION

University of Jhang

2024 – Present

Bachelor of Science in Computer Science (BSCS)

- Academic Performance:** Current cumulative CGPA of **3.9 / 4.0** (4th Semester)
- Core Coursework:** Software Engineering, Database Systems, Object-Oriented Programming, Data Structures & Algorithms

Uswa College Chund Bharwana (BISE Faisalabad)

2022 – 2024

Intermediate in Computer Science (ICS)

- Academic Performance:** Achieved **1057 / 1200 marks** — Secured a first-class distinguished academic standing.

Matriculation (Science Group)

- **Academic Performance:** Achieved **1015 / 1100 marks**.

ACHIEVEMENTS & PROFESSIONAL CERTIFICATIONS

- **Chief Minister (CM) Laptop Scheme Award:** Awarded a high-performance laptop by the Government for securing elite academic excellence in merit listings.
- **Google AI Essentials Specialization:** Issued by Google via Coursera (December 2025) — Specialized in AI prompting, prompt engineering, and utilizing generative AI tools safely.
- **Cybersecurity Certification:** Completed professional baseline training via Coursera covering security compliance, risk mitigation, and defensive networking foundations.
- **Academic Tutor:** Home Academy (2021 – Present) — Mentored intermediate and secondary school students in computer science foundations and core mathematics.
